**DR. OHRI INVITED TO SPEAK AT THE BRITISH MUSEUM IN THE
2015 LONDON BUSINESS SCHOOL GLOBAL HEALTHCARE CONFERENCE**

LONDON, United Kingdom, 1 December, 2015: Regent's Park Heart Clinics Ltd. (Regent's Park), an independent healthcare company specialising in the diagnosis and treatment of heart disease, today announced that its Chief Executive, Dr. Ohri, has been invited to speak alongside other healthcare executives at the 2015 London Business School Global Healthcare conference.

The opening keynote speaker will be Mr. **Stuart Fletcher**, CEO of Bupa and the closing keynote will be delivered by **Dr. Paul Stoffels**, Chief Scientific Officer and Worldwide Chairman, Johnson & Johnson Pharmaceuticals

Below is an excerpt of the background to the meeting:

A healthy future? Striking the balance between patients, value and innovation. The healthcare ecosystem is changing. Developments in technology and rising patient expectations will require paradigm shifts in the way healthcare is delivered. The picture is complicated by continued strain on limited healthcare budgets and the need to provide satisfactory returns to investors. As we move towards the future, new models for business and for the provision of clinical care will be needed to adequately serve stakeholders - how will we strike a balance between patients, value and innovation?"

The conference is to be held on Monday 7 December 2015 at the iconic British Museum and is sponsored by The Boston Consulting Group.

Regent's Park is an independent company dedicated to creating world-class centres for the diagnosis and treatment of heart disease. The company develops, owns and operates diagnostic and treatment facilities focusing exclusively on cardiovascular disease in partnership with leading hospitals and groups of cardiologists across the United Kingdom. Regent's Park has been a national provider of cardiology services to the NHS since 2003, and has provided invasive cardiology procedures to over 35,000 patients through its facilities - coronary angiograms, coronary angioplasty, cardiac electrophysiology, defibrillator and pacing procedures. Regent's Park prides itself on its ability to deliver high quality, cost effective cardiac care, through excellent service, efficient operations management, well trained staff, and uncompromising professionalism.

The Regent's Park guiding philosophy is that every patient with heart disease should have access to healthcare of a world-class standard.
